

GRADIOR TECH

## Company profile

For almost 30 years we have been supplying theatre and stage technology, offering a complete range of services, from design and manufacture to assembly, installation and after-sales service. We focus on turnkey deliveries, but we are also happy to supply you with a single piece of equipment for any specific purpose.

The integration of sales, design and engineering under one roof together with production management and manufacturing ensures efficient project handling.

Over the years we have completed hundreds of projects around the world, from local theatres to world-renowned stages, from local community centres to multi-purpose multi-genre arenas.

Whether you are an investor, architect, expert designer or operator of a cultural facility, we are your experienced partner from the architectural design and approval process through design and workshop drawings and manufacture up to the assembly and installation and final handover of the project.

From premiere to the last performance. You can rely on us.

*We give you the best tools. The rest is on you.*
